

eTapestry's Database Optimization Services

As you increase your fundraising efforts and continue to work in your donor database, you might find that there are additional updates or imports you would like to use to improve or increase the data in your database. That is where our **Database Optimization Services** come into play. If you would like to import outside data from a fundraising event, add in additional gifts in a batch-style format, clean up existing salutations or user-defined fields, or even clean up duplicates or remove old accounts, we have a service that can assist you in all your database update needs.
