

eTapestry's Training Options

What is it?

Training can be a constant struggle for every nonprofit organization when it comes to your software. You are faced with the need to keep current staff fully trained, make sure new staff members are educated, and get volunteers the training they need to effectively and efficiently use the software. But the expense and the scheduling are often prohibitive, so you try to struggle through things on your own, try to teach yourself - and other staff - and accept the fact that you may be doing things the hard way. You are also keenly aware that your success at getting the most benefit out of your database is directly related to the training your staff receives.

At eTapestry, we have developed several options to meet the training needs, styles, and budgets of any organization.

Training Options

Annual Training Agreement - An innovative approach to training from eTapestry puts an end to the struggle of getting your staff fully trained, and keeping them trained. It's called an Annual Training Agreement and it gives you unlimited training for all members of your staff.

For little more than the airfare and hotel costs associated with traditional classroom training – for one person – you can train your entire staff on any eTapestry class for a full year!

With an Annual Training Agreement, you pay a one time setup fee of \$900 (USD) plus 25% of your eTapestry service fee per year (minimum of \$300/year) for unlimited use of any eTapestry program. This includes a wide range of web-based training each month with a live instructor, as well as full use of our online recorded trainings.

So the next time you have new employees, volunteers, board members, or anyone in your organization that needs to learn eTapestry, you can do it without spending additional dollars. Annual

Training provides unmatched value when compared to traditional forms of software training.

To participate in a class simply go online to www.etapestry.com/training and register for any available training class, at the date, and time of your choice from our published training schedule.

Recorded Online Training Links – eTapestry's Recorded sessions bring training to your desktop. These pre-recorded sessions let you focus on specific areas of the eTapestry application. Listen and watch as an eTapestry instructor explains and demonstrates how to do everything from adding gifts to sending mass email. Because these sessions are recorded, you can play - and replay - as often as you need. It is a perfect solution for training multiple individuals in an organization, or getting some detailed training on a specific area of eTapestry - all at a very affordable price.

All recorded training links are available for \$550 (USD) and can be accessed from within your eTapestry database.

Summary

eTapestry continues its tradition of innovative, affordable solutions with our Annual Training and Recorded Training packages. For additional information, or to discuss which package best fits the needs of your organization, please contact your eTapestry Account Executive at 888-739-3827 or at info@etapestry.com.
